

PHASED APPROVAL / SITE PREP PERMIT

PROJECT ADDRESS \_\_\_\_\_ DATE \_\_\_\_\_

JOB NAME \_\_\_\_\_ PERMIT # \_\_\_\_\_

Plans have been submitted to this department for the above project. Complete approval of plans cannot be issued at this time; however, a phased approval is granted to the above project.

[ ] Phased Approval is hereby issued to proceed with Site Construction. Before any site or other construction activities can begin a WMSC Site Preparation Inspection is required and must be approved before any other work may begin. Before the inspection can be approved, the following must be installed and approved: Temporary rock construction entrance; all necessary BMP's (i.e. silt fence, check dams, etc.); and all temporary sediment traps/basins. No building construction at this location is approved until the WMSC Site Preparation Inspection is passed.

KEEP YOUR SOILS ON YOUR SITE!

APPROPRIATE MEASURES MUST BE TAKEN AND MAINTAINED TO ASSURE SEDIMENT AND EROSION CONTROL THROUGHOUT THE PROJECT.

(Silt fence, inlet protection, etc.)

[ ] Phased approval is hereby issued to proceed with: \_\_\_\_\_

Do not proceed with \_\_\_\_\_

DO NOT EXCEED THE LIMITS OF THIS PHASED APPROVAL

This approval allows the applicant to proceed ONLY with that portion of work described above and on the Approved Field Set when issued. This Phased Approval is to be stapled to the Field Set which must be maintained on site at all times until a full plan approval and permit is issued.

This approval in no way exempts the applicant from any code compliance or inspection issues. It is the Primary Applicant's responsibility to Call the office for all required inspections. This approval will be revoked if timely approvals are not obtained on the balance of the project.

I clearly understand the limitations of this phased permit approval and agree to comply as stated above:
